

**Your homeowners  
insurance doesn't  
cover floods...**

**FEMA**

**NATIONAL  
FLOOD  
INSURANCE  
PROGRAM**

# **Federal flood insurance does.**

**Floods can happen anytime, anywhere.**

They cause anguish and destruction—  
physical, emotional, and financial.

Especially when victims realize the damage isn't  
covered by their homeowners insurance policy.

**Federal disaster assistance?**

**It's not the answer either.**

Why? Because in most cases, the only aid  
disaster victims may qualify for is a loan, and that  
must be repaid—with interest!

**Only Federal flood insurance reimburses  
you for flood damage to your property!**

With one annual premium, you can protect your  
most important investment—your home and your  
finances.

Call your insurance agent or company today.  
Ask about the National Flood Insurance Program.  
There's no better way to save for a rainy day.
